ChristmasAce Flip Book of Jokes

Using Widgit Symbols

Question slips

To create the printable flip joke book follow the steps below;

- 1, Print all pages with the printer settings; one slide per page, single sided, full colour, A4
- 2, Cut out individual question slips from the 4 question slip pages. Cut around the bold black rectangular edge but also include the lift the flap tab for each question.
- 3, Stick with glue or sellotape, the top blank panel of each question slip to the corresponding top panel on the answer/joke page. This will create the flip element of the joke book. Each question and answer/joke page are numbered accordingly.
- 4, Then connect the book together with treasury tags, ring binders or similar.
- 5, Start using and laughing.
