Pack of Alphabet Charts – High Contrast Colour Scheme

This pack contains a selection of alphabet charts in high contrast colours. The charts here are made using yellow font on a black background which is one approach to making high contrast resources. The pack contains a mixture of alphabetical and QWERTY (as on a computer keyboard) layouts.
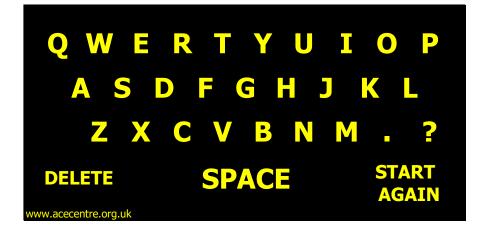

The pack contains charts of different sizes and options that do and do not have numbers.

Consider printing the alphabet chart of your choice on card or tearproof / waterproof paper. Alternatively, the chart could be laminated, ideally using a matt laminate pouch as gloss may reflect overhead lighting.

For more information about developing, using and supporting alphabet charts, please see www.acecentre.org.uk or use the free advice line 0800 080 3115.

At www.acecentre.org.uk there are also a wide range of alternative paper-based communication tools available for download, including alphabet charts with standard colour schemes. If pointing to letters is difficult, there are also alphabet charts designed to be accessed by listener mediated scanning or by eye pointing
